Forward Looking Statements

Certain matters discussed in this 2000 Form 10-K and in the accompanying 2000 Annual Report are "forward-looking statements," intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements can generally be identified as such because the context of the statement includes phrases such as the Company "expects," "believes" or other words of similar meaning. Similarly, statements that describe the Company's future plans, objectives or goals are also forward-looking statements. Such forward-looking statements are subject to certain risks and uncertainties which could cause actual results or outcomes to differ materially from those currently anticipated. Factors that could affect actual results or outcomes include changes in consumer spending patterns, actions of companies that compete with the Company, the Company's success in managing inventory, movements in foreign currencies or interest rates and adverse weather conditions. Shareholders, potential investors and other readers are urged to consider these factors in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements included herein are only made as of the date of this 2000 Form 10-K and in the accompanying 2000 Annual Report and the Company undertakes no obligations to publicly update such forward-looking statements to reflect subsequent events or circumstances.

PART I

ITEM 1. BUSINESS

Johnson Outdoors Inc. and its subsidiaries (the "Company") design, manufacture and market outdoor recreation products in four businesses: Diving, Watercraft, Outdoor Equipment and Motors. The Company's primary focus is innovation--meeting consumer needs with breakthrough products that stand apart from the competition and advance the Company's strong brand names. Its subsidiaries are organized in a network that promotes entrepreneurialism and leverages best practices and synergies, following the strategic vision set by headquarters. The Company is controlled by Samuel C. Johnson, members of his family and related entities.

The Company was incorporated in Wisconsin in 1987 as successor to various businesses.

Diving

The Company is one of the world's largest manufacturers and distributors of technical underwater diving products, which it sells under the Scubapro and SnorkelPro names. The Company markets a full line of underwater diving and snorkeling equipment, including regulators, stabilizing jackets, tanks, depth gauges, masks, fins, snorkels, diving electronics and other accessories. The Company is also a leading manufacturer of dive computers and other electronics sold under the Aladin and Uwatec brands. Scubapro, Aladin and Uwatec products are marketed to the high quality, premium priced segment of the market via limited distribution to independent specialty diving shops worldwide. These diving shops generally provide a wide range of services to divers, including instruction and repair service.

The Company focuses on maintaining Scubapro, Aladin and Uwatec as the market leaders in innovation and new products. The Company maintains research and development functions both in the United States and Europe and holds several patents on products and features. Consumer advertising focuses on building the brand names and position as the industry's high quality and innovation leader. The Company advertises its equipment in diving magazines and through in-store displays.

The Company also manufactures and markets diving buoyancy compensators primarily for the original equipment market, under the Soniform name.

The Company maintains manufacturing and assembly facilities in Switzerland, Mexico, Italy and Indonesia and procures a majority of its rubber and plastic products and components from third-party manufacturers.

Watercraft

The Company manufactures and markets canoes, kayaks, paddles, oars, recreational sailboats, personal flotation devices and small thermoformed recreational boats under the brand names Old Town, Carlisle Paddles, Ocean Kayak, Pacific Kayak, Necky, Escape, Extrasport, Swiftwater, Leisure Life and Dimension.

The Company's Old Town Canoe subsidiary produces high quality canoes and kayaks for family recreation, touring and tripping. The Company uses a patented rotational-molding process for manufacturing polyethylene kayaks and canoes to compete in the high volume, low and mid-priced range of the market. These kayaks and canoes feature stiffer and more durable hulls than higher priced boats. The Company also manufactures canoes from fiberglass, Royalex (ABS) and wood. Carlisle Paddles, a manufacturer of canoe and kayak paddles and rafting oars, manufactures products that are sold by the Company's other watercraft businesses and also distributed directly through the same channels.

The Company is a leading manufacturer of sit-on-top kayaks under the Ocean Kayak and Pacific Kayak brands. In addition, the Company manufactures and markets high quality Necky sea touring and whitewater kayaks; Escape recreational sailboats; Extrasport and Swiftwater personal flotation devices; small thermoformed recreational boats, including canoes, pedal boats, deck boats and tenders, under the Leisure Life brand; and the Dimension brand of kayaks.

In April 2000, the Company completed the acquisition of Pacific Kayak Ltd., a manufacturer of sit-on-top and sea touring kayaks located in Auckland, New Zealand.

The Company's kayaks, canoes and accessories are sold primarily to specialty stores and marine dealers, sporting goods stores and catalog and mail order houses such as L. L. Bean(R), in the United States and Europe. Leisure Life products are sold through marine dealers and large retail chains under several brand identities.

The Company manufactures its Watercraft products in six locations in the United States, two locations in Canada and in New Zealand. Ocean Kayak products are also manufactured and sold under license in Europe.

The North American market for kayaks is exhibiting strong growth, while the canoe market is growing modestly. The Company believes, based on industry and other data, that it is a leading manufacturer of canoes and kayaks in the United States in both unit and dollar sales.

Outdoor Equipment

The Company's Outdoor Equipment products include Jack Wolfskin high quality outdoor clothing, innovative footwear, camping tents, backpacks, travel gear and accessories; Eureka! military, commercial and consumer tents; Camp Trails backpacks; and Silva field compasses.

Jack Wolfskin, based in Germany, distributes its products primarily through specialized outdoor stores, selected sporting goods dealers and a number of franchised Jack Wolfskin stores. Jack Wolfskin has a strong position in Germany with additional distribution in the key European markets of Great Britain, Benelux, Switzerland and Austria. The product is also sold in Canada and the United States and, under license, in Japan.

Eureka! consumer tents and Camp Trails backpacks compete primarily in the mid-to high-price range and are sold in the United States and Canada through independent sales representatives, primarily to sporting goods stores, catalog and mail order houses and camping and backpacking specialty stores. Marketing of the Company's tents and backpacks is focused on building the Eureka! and Camp Trails brand names and establishing the Company as a leader in tent design and innovation. The Company's camping tents and backpacks are produced primarily by third-party manufacturing sources.

Eureka! camping tents have outside self-supporting aluminum frames, allowing quicker and easier set-up, a design approach the Company originated. Most Eureka! tents are made from breathable nylon. Eureka! camping products are sold under license in Japan and Korea. Eureka! commercial tents include party tents, sold primarily to general rental stores, and other commercial tents sold directly to tent erectors. Commercial tents are manufactured by the Company in the United States. The Company was awarded several contracts for production of both camping and commercial tents by the U.S. Armed Forces in 1997. The Company also serves as the exclusive distributor of Losberger commercial framing structures in the United States.

Camp Trails backpacks consist primarily of internal and external frame backpacks for hiking and mountaineering, but also include soft back bags, day packs and travel packs.

Silva field compasses, which are manufactured by third parties, are marketed exclusively in North America, the area for which the Company owns Silva trademark rights.

Motors

The Company manufactures, under its Minn Kota name, battery powered motors used on fishing boats and other boats for quiet trolling power or primary propulsion. The Company's Minn Kota motors and related accessories are sold in the United States, Canada, Europe and the Pacific Basin through large retail store chains such as Wal Mart and K-Mart, catalogs such as Bass Pro Shops and Cabelas, sporting goods specialty stores, marine dealers, and original equipment boat manufacturers including Ranger(R) Boats, Outboard Marine Corporation (under the Evinrude(R) brand), Triton Boats, Lund Boats, Smoker Craft, Alumacraft, and Skeeter. Consumer advertising and promotion include advertising on regional television and in outdoor, general interest and sports magazines. Packaging and point-of-purchase materials are used to increase consumer appeal and sales.

The Company has the leading market share of the U.S. electric fishing motor market. While the overall motors market has been stagnant in recent years, the Company believes it has been able to increase revenues by emphasizing marketing, product innovation and original equipment manufacturer sales.

The Company's line of Airguide marine, weather and automotive instruments is distributed primarily in the United States through large retail store chains and original equipment manufacturers. Airguide products are manufactured by the Company or sourced from third-party manufacturers.

Fishing

In March 2000, the Company sold its Fishing business (consisting of the marketing of rods, reels, lures, spoons and fishing line). As a result, the operations and related assets and liabilities of the Fishing business have been reclassified as discontinued for financial reporting purposes. A significant loss on the sale of the business was recognized, but the tangible net worth of the Company was not adversely impacted. See Note 4 to the Consolidated Financial Statements for financial information.

Sales by Principal Business

See Note 13 to the Consolidated Financial Statements for financial information comparing sales by major product category.

International Operations

See Note 13 to the Consolidated Financial Statements for financial information comparing the Company's domestic and international operations.

Research and Development

The Company commits significant resources to research and new product development. The Company expenses research and development costs as incurred. The amounts expended by the Company in connection with research and development activities for each of the last three fiscal years are set forth in the Consolidated Statements of Operations.

Competition

The markets for the Company's products are very competitive. The Company believes its products compete favorably on the basis of product innovation, product performance and marketing support and, to a lesser extent, price.

Employees

At September 29, 2000, the Company had approximately 1,400 employees. The Company considers its employee relations to be excellent. Temporary employees are utilized to manage peaks in the seasonal manufacturing of products.

Backlog

Unfilled orders for future delivery of products of continuing operations totaled approximately \$61.0 million at September 29, 2000 and \$62.8 million at October 1, 1999. The Company's businesses do not receive significant orders in advance of expected shipment dates for the majority of products.

Patents, Trademarks and Proprietary Rights

The Company owns no single patent which is material to its business as a whole. However, the Company holds several patents, principally for diving products, rotational-molded canoes and electric motors and regularly files applications for patents. The Company has numerous trademarks and trade names which it considers important to its business, many of which are discussed on the preceding pages. The Company vigorously defends its intellectual property rights.

Sources and Availability of Materials

The Company's products use materials that are generally in adequate supply.

Seasonality

The Company's business is seasonal. The following table shows total net sales and operating profit or loss related to continuing operations of the Company for each quarter, as a percentage of the total year. ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

The following discussion includes comments and analysis relating to the Company's results of operations and financial condition for the three years ended September 29, 2000. Unless otherwise noted, the discussion refers to continuing operations. This discussion should be read in conjunction with the Consolidated Financial Statements and related notes thereto.

Results of Operations

Summary consolidated financial results from continuing operations are as follows:

| (millions, except per share data) | 2000 | 1999 | 1998 |
|---|---------|---------|---------|
| Net sales | \$347.3 | \$305.1 | \$270.0 |
| Gross profit | 135.2 | 120.7 | 106.8 |
| Operating expenses(1) | 110.5 | 101.2 | 88.4 |
| Operating profit | 24.7 | 19.5 | 18.4 |
| Interest expense | 9.8 | 9.6 | 9.6 |
| Income from continuing operations | 8.4 | 5.9 | 5.4 |
| Diluted earnings per common share from continuing operations | 1.03 | 0.72 | 0.66 |

(1) Includes strategic charges of \$2.4 million, \$2.8 million and \$1.4 million in 2000, 1999 and 1998, respectively.

2000 vs 1999

Net Sales

Net sales totaled \$347.3 million in 2000 compared to \$305.1 million in 1999, an increase of 14%. Sales as measured in U.S. dollars were impacted by the effect of foreign currencies relative to the U.S. dollar in comparison to 1999. Excluding the effects of foreign currency movements, sales increased 17% from 1999. The increase was partially driven by the introduction of innovative new products in the Watercraft and Motors businesses, as well as growth in sales of existing products in Watercraft, Motors and Outdoor Equipment.

Operating Results

The Company recognized an operating profit of \$24.7 million in 2000 compared to an operating profit of \$19.5 million in 1999. Gross profit margins decreased from 39.5% in 1999 to 38.9% in 2000, as significant improvements in the Diving and Outdoor Equipment businesses, as well as improvement in the Motors business (due to emphasis on higher margin products, increases in volume and improved production efficiencies) were offset by a decline in Watercraft (due to production issues related to a 26.4% growth in Watercraft revenues). The Company continues to experience margin pressure in all of its businesses due to competition.

Operating expenses, excluding strategic charges, totaled \$108.1 million, or 31.1% of sales, in 2000 compared to \$98.4 million, or 32.2% of sales, in 1999. The 10% growth in operating expenses in 2000 was less than the growth rate of sales, which contributed to the improved operating results. Nearly all items in operating expenses declined as a percentage of sales from 1999.

The Company recognized strategic charges totaling \$2.4 million in 2000 and \$2.8 million in 1999. These charges resulted from severance, moving and other costs related primarily to the closure and relocation of a manufacturing facility in the Motors business and for severance, relocation and recruitment costs in the North American Outdoor Equipment business. The Company anticipates no significant additional strategic charges will be incurred in 2001 to complete announced actions.

Other Income and Expenses

Interest expense increased \$0.2 million in 2000, reflecting higher working capital levels primarily from accounts receivable and inventory, as well as higher interest rates.

Overall Results

The Company recognized income from continuing operations of \$8.4 million in 2000, or \$1.03 per diluted share, compared to \$5.9 million, or \$0.72 per diluted share, in 1999. The Company recorded income tax expense of \$6.7 million in 2000, an effective rate of 44.5%. The increased rate from 41.5% in 1999 is due to an increase in state income tax and change in expected recoverability of state net operating losses.

Discontinued Operations

In March 2000, the Company sold its Fishing business. As a result, operations and related assets and liabilities of the Fishing group have been classified as discontinued for all periods presented herein. The sale price totaled \$47.3 million, including \$14.1 million of accounts receivable retained by the Company and \$2.4 million of debt assumed by the buyer. The Company recorded a loss of \$24.4 million, net of tax, related to the sale of the business, taking into account operating results from the measurement date to the date of disposal. In addition, the Company recorded an after tax loss from operations up to the measurement date of \$0.9 million in 2000 and an after tax gain of \$1.2 million in 1999.

1999 vs 1998

Net Sales

Net sales totaled \$305.1 million in 1999 compared to \$270.0 million in 1998, an increase of 13%. Sales as measured in U.S. dollars were impacted by the effect of foreign currencies relative to the U.S. dollar in comparison to 1998. Excluding the effects of foreign currency movements, sales increased 14.0% from 1998. The increase was due to strong growth in sales of Watercraft, including sales of products of businesses the Company acquired in 1999 and 1998, and growth in sales of Motors and Outdoor Equipment products, which more than offset weaker Diving equipment sales.

Operating Results

The Company recognized an operating profit of \$19.5 million in 1999 compared to an operating profit of \$18.4 million in 1998. Gross profit margins remained flat with 1998 at 39.6%, as a result of an improved mix of products sold in most businesses, increases in volume and the effect of businesses acquired in 1999, offset by a decline in the higher margin Diving business.

Operating expenses, excluding strategic charges, totaled \$98.4 million in 1999 compared to \$87.1 million in 1998, a rate of 32.2% of sales in both years. The allowance for doubtful accounts receivable was increased due to higher levels of sales and receivables. These factors were partially offset by a decline from the prior year in unusual legal expenses incurred to successfully defend certain of the Company's key Outdoor Equipment, Diving and Motors patents and trademarks.

The Company recognized strategic charges totaling \$2.8 million in 1999 and \$1.4 million in 1998. These charges resulted from severance and other costs related to the integration of acquired businesses, primarily in the Diving business, and for severance, relocation and recruitment costs in the North American Outdoor Equipment business.

Other Income and Expenses

Interest expense remained flat in 1999 at \$9.6 million, reflecting higher debt levels resulting from the acquisition of three businesses, offset by lower levels of working capital, primarily inventory.

Overall Results

The Company recognized income from continuing operations of \$5.9 million in 1999, or \$0.72 per diluted share, compared to \$5.4 million, or \$0.66 per diluted share, in 1998. The Company recorded income tax expense of \$4.2 million in 1999, an effective rate of 41.5%, compared to 41.9% in 1998.

Discontinued Operations

The Company recorded a gain, net of tax, of \$1.2 million in 1999 and a loss, net of tax, of \$(0.2) million in 1998 related to discontinued operations.

Financial Condition

The following discusses changes in the Company's liquidity and capital resources.

Operations

The following table sets forth the Company's working capital position related to continuing operations at the end of each of the past three years:

| (millions) | 2000 | 1999 | 1998 |
|------------------------|---------|---------|---------|
| Current assets(1) | \$144.2 | \$129.6 | \$129.8 |
| Current liabilities(2) | 46.9 | 45.1 | 39.4 |
| Working capital | \$ 97.3 | \$ 84.5 | \$ 90.4 |
| Current ratio | 3.1:1 | 2.9:1 | 3.3:1 |

(1)Excludes net assets of discontinued operations.

(2)Excludes short-term debt and current maturities of long-term debt.

Cash flows provided by operations totaled \$9.8 million in 2000, \$24.8 million in 1999 and \$9.1 million in 1998. The Company's profitability and increases in accounts payable and other accrued liabilities contributed to the positive cash flows in 2000 and 1999. Growth in accounts receivable and inventories of \$10.7 million and \$8.4 million, respectively, reduced the overall positive cash flows provided by operations in 2000.

Depreciation and amortization charges were \$12.5 million in 2000, \$12.6 million in 1999 and \$10.8 million in 1998. Amortization of intangible assets arising from the Company's acquisitions and increased depreciation from capital spending accounted for the increase from 1998 to 1999.

Investing Activities

Cash flows provided by (used for) investing activities were \$20.0 million, \$(26.1) million and \$(22.5) million in 2000, 1999 and 1998, respectively. Expenditures for property, plant and equipment were \$14.1 million in 2000, \$13.0 million in 1999 and \$11.6 million in 1998. The Company's recurring investments are primarily related to tooling for new products, facilities and information systems improvements. In 2001, capital expenditures are anticipated to total approximately \$10.5 million. These expenditures are expected to be funded by working capital or existing credit facilities.

The Company completed the acquisitions of one business in 2000, three businesses in 1999 and three businesses in 1998, which increased tangible and intangible assets and debt by \$0.9 million, \$13.6 million and \$12.8 million, respectively. The sale of the Company's Fishing business in March 2000 provided \$33.1 million of cash, which was used to reduce both short-term and long-term debt.

Financing Activities

The following table sets forth the Company's debt and capital structure at the end of the past three years:

| (millions) | 2000 | 1999 | 1998 |
|------------------------------------|---------|---------|---------|
| Current debt | \$ 59.5 | \$ 49.4 | \$ 42.5 |
| Long-term debt | 45.8 | 72.7 | 81.5 |
| Total debt | 105.3 | 122.1 | 124.0 |
| Shareholders' equity | 100.8 | 127.2 | 124.4 |
| Total capitalization | \$206.1 | \$249.3 | \$248.4 |
| Total debt to total capitalization | 51.1% | 49.0% | 49.9% |

Cash flows provided by (used for) financing activities totaled \$(12.5) million in 2000, \$(0.8) million in 1999 and \$8.4 million in 1998. In 1998, the Company consummated a private placement of long-term debt totaling \$25 million. Payments on long-term debt made in 2000 totaled \$22 million, including a \$15.1 million payment in March 2000 from the proceeds of the sale of the Fishing business. At September 29, 2000, the Company had available unused credit facilities in excess of \$63 million, which is believed to be adequate for its needs.

Market Risk Management

The Company is exposed to market risk stemming from changes in foreign exchange rates, interest rates and, to a lesser extent, commodity prices. Changes in these factors could cause fluctuations in earnings and cash flows. In the normal course of business, exposure to certain of these market risks is managed by entering into hedging transactions authorized under Company policies that place controls on these activities. Hedging transactions involve the use of a variety of derivative financial instruments. Derivatives are used only where there is an underlying exposure: not for trading or speculative purposes.

Foreign Operations

The Company has significant foreign operations, for which the functional currencies are denominated primarily in Swiss and French francs, German marks, Italian lire, Japanese yen and Canadian dollars. As the values of the currencies of the foreign countries in which the Company has operations increase or decrease relative to the U.S. dollar, the sales, expenses, profits, assets and liabilities of the Company's foreign operations, as reported in the Company's Consolidated Financial Statements, increase or decrease, accordingly. The Company mitigates a portion of the fluctuations in certain foreign currencies through the purchase of foreign currency swaps, forward contracts and options to hedge known commitments, primarily for purchases of inventory and other assets denominated in foreign currencies.

Interest Rates

The Company's debt structure and interest rate risk are managed through the use of fixed and floating rate debt. The Company's primary exposure is to United States interest rates. The Company also periodically enters into interest rate swaps, caps or collars to hedge its exposure and lower financing costs.

Commodities

Certain components used in the Company's products are exposed to commodity price changes. The Company manages this risk through instruments such as purchase orders and non-cancelable supply contracts. Primary commodity price exposures are metals and packaging materials.

Sensitivity to Changes in Value

The estimates that follow are intended to measure the maximum potential fair value or earnings the Company could lose in one year from adverse changes in foreign exchange rates or market interest rates under normal market conditions. The calculations are not intended to represent actual losses in fair value or earnings that the Company expects to incur. The estimates do not consider favorable changes in market rates. Further, since the hedging instrument (the derivative) inversely correlates with the underlying exposure, any loss or gain in the fair value of derivatives would be generally offset by an increase or decrease in the fair value of the underlying exposures. The positions included in the calculations are foreign exchange forwards, currency swaps and fixed rate debt. Certain instruments are included in both categories of risk exposure calculated below. The calculations do not include the underlying foreign exchange positions that are hedged by these market risk sensitive instruments. The table below presents the estimated maximum potential one year loss in fair value and earnings before income taxes from a 10% movement in foreign currencies and a 100 basis point movement in interest rate market risk sensitive instruments outstanding at September 29, 2000:

| | Estimated Impact on | |
|-----------------------------------|---------------------|---------------------------------|
| (millions) | Fair Value | Earnings Before Income Taxes |
| Foreign exchange rate instruments | \$2.1 | \$0.5 |
| Interest rate instruments | 1.4 | 0.5 |

Other Factors

The Company has not been significantly impacted by inflationary pressures over the last several years. The Company anticipates that changing costs of basic raw materials may impact future operating costs and, accordingly, the prices of its products. The Company is involved in continuing programs to mitigate the impact of cost increases through changes in product design and identification of sourcing and manufacturing efficiencies. Price increases and, in certain situations, price decreases are implemented for individual products, when appropriate.

Pending Accounting Changes

SFAS 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS 137, Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133 and SFAS 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities, is effective for the Company as of September 30, 2000. SFAS 133 requires that an entity recognize all derivatives as either assets or liabilities measured at fair value. The accounting for changes in the fair value of a derivative depends on the use of the derivative. Adoption of these new accounting standards will result in a cumulative after-tax gain in net income of approximately \$1.8 million and an accumulated other comprehensive loss of approximately \$3.0 million in the first quarter of fiscal 2001. The adoption will also impact assets and liabilities recorded on the balance sheet.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 101, Revenue Recognition (SAB 101). An amendment in June 2000 delayed the effective date for the Company until the fourth quarter of 2001, which is when the Company will adopt the bulletin. The impact of adopting SAB 101 is still being evaluated and the Company does not currently believe its adoption will have a material impact on the consolidated financial statements.

In May 2000, the Financial Accounting Standards Board's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-14, Accounting for Certain Sales Incentives. This issue addresses the recognition, measurement, and income statement classification for various types of sales incentives including discounts, coupons, rebates and free products. The Company will adopt this consensus in the fourth quarter of 2001. The impact of this consensus is still being evaluated and the Company does not currently believe its adoption will have a material impact on the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Johnson Outdoors Inc. is an integrated, global outdoor recreation products company engaged in the design, manufacture and marketing of brand name outdoor equipment, diving, watercraft and motors products.

1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

All monetary amounts, other than share and per share amounts, are stated in thousands and are from continuing operations.

Principles of Consolidation

The Consolidated Financial Statements include the accounts of Johnson Outdoors Inc. and all majority owned subsidiaries (the Company) and are stated in conformity with accounting principles generally accepted in the United States of America. Significant intercompany accounts and transactions have been eliminated in consolidation. The Consolidated Financial Statements have been restated to reflect the results of the Fishing business as a discontinued operation. See Note 4.

The preparation of financial statements requires management to make estimates and assumptions that impact the reported amounts of assets, liabilities and operating results and the disclosure of commitments and contingent liabilities. Actual results could differ significantly from those estimates. For the Company, significant estimates include the allowance for doubtful accounts receivable, reserves for inventory valuation and the valuation allowance for deferred tax assets.

The Company's fiscal year ends on the Friday nearest September 30. The fiscal years ended September 29, 2000 (hereinafter 2000) and October 1, 1999 (hereinafter 1999) and October 2, 1998 (hereinafter 1998) each comprise 52 weeks.

Cash and Temporary Cash Investments

For purposes of the consolidated statements of cash flows, the Company considers all short-term investments in interest-bearing bank accounts, securities and other instruments with an original maturity of three months or less to be equivalent to cash.

The Company maintains cash in bank accounts in excess of insured limits. The Company has not experienced any losses as a result of this practice and does not believe that significant credit risk exists.

Inventories

Inventories are stated at the lower of cost (determined using the first-in, first-out method) or market.

Inventories attributable to continuing operations at the end of the respective years consist of the following:

| | 2000 | 1999 |
|-----------------|-----------|-----------|
| Raw materials | \$ 23,122 | \$ 22,702 |
| Work in process | 2,238 | 3,176 |
| Finished goods | 40,297 | 39,014 |
| | 65,657 | 64,892 |
| Less reserves | 2,949 | 4,911 |
| | \$ 62,708 | \$ 59,981 |

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Depreciation of plant and equipment is determined by straight-line and accelerated methods over estimated useful lives, which range from 3 to 30 years.

Upon retirement or disposition, cost and the related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized in operating results.

Property, plant and equipment attributable to continuing operations at the end of the respective years consist of the following:

| | 2000 | 1999 |
|-----------------------------------|-----------|-----------|
| Property and improvements | \$ 1,423 | \$ 1,275 |
| Buildings and improvements | 19,303 | 16,301 |
| Furniture, fixtures and equipment | 82,994 | 74,667 |
| | 103,720 | 92,243 |
| Less accumulated depreciation | 66,351 | 56,920 |
| | \$ 37,369 | \$ 35,323 |

Intangible Assets

Intangible assets are stated at cost less accumulated amortization. Amortization is computed using the straight-line method with periods ranging from 15 to 40 years for goodwill and 3 to 16 years for patents, trademarks and other intangible assets.

Intangible assets attributable to continuing operations at the end of the respective years consist of the following:

| | 2000 | 1999 |
|-------------------------------|-----------|-----------|
| Goodwill | \$ 69,546 | \$ 75,254 |
| Patents, trademarks and other | 4,122 | 4,110 |
| | 73,668 | 79,364 |
| Less accumulated amortization | 15,802 | 13,765 |
| | \$ 57,866 | \$ 65,599 |

Impairment of Long-Lived Assets

The Company annually assesses the recoverability of property, plant and equipment and intangible assets, primarily by determining whether the depreciation and amortization of the balance over its remaining life can be recovered through projected undiscounted future operating cash flows of the related businesses. The amount of impairment, if any, is measured primarily based on the deficiency of projected discounted future operating cash flows relative to the value of the assets, using a discount rate reflecting the Company's cost of capital, which currently approximates 10%.

Income Taxes

The Company provides for income taxes currently payable, and deferred income taxes resulting from temporary differences between financial statement and taxable income, using the asset and liability method.

In assessing the realizability of deferred tax assets, the Company considers whether it is more likely than not that some portion, or all of the deferred tax assets, will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the years in which those temporary differences become deductible. The Company considers the scheduled reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment.

Federal and state income taxes are provided on foreign subsidiary income distributed to, or taxable in, the United States during the year. At September 29, 2000, net undistributed earnings of foreign subsidiaries total approximately \$55,500. A substantial portion of these unremitted earnings have been permanently invested abroad and no provision for federal or state taxes is made on these amounts. With respect to that portion of foreign earnings which may be returned to the United States, provision is made for taxes if the amounts are significant.

The Company's United States entities file a consolidated federal income tax return.

Employee Benefits

The Company and certain of its subsidiaries have various retirement and profit sharing plans. United States pension obligations, which are generally based on compensation and years of service, are funded by payments to pension fund trustees. Foreign plans are funded as expenses are incurred. The Company's policy is generally to fund the minimum amount required under the Employee Retirement Income Security Act of 1974 for plans subject thereto. Profit sharing and other retirement costs are funded at least annually.

Foreign Operations and Derivative Financial Instruments

Assets and liabilities of foreign operations are translated into U.S. dollars at the rate of exchange existing at the end of the year. Results of operations are translated at monthly average exchange rates. Gains and losses resulting from the translation of foreign currency financial statements are classified as accumulated other comprehensive income, a separate component of shareholders' equity.

The Company operates internationally, which gives rise to exposure to market risk from movements in foreign exchange rates. The Company uses foreign currency forward contracts and options in its selective hedging of foreign exchange exposure. Gains and losses on contracts that qualify as hedges are recognized as an adjustment of the carrying amount of the item hedged. The Company primarily hedges assets, inventory purchases and loans denominated in foreign currencies. The Company does not enter into foreign exchange contracts for trading purposes. Gains and losses on unhedged exposures are recorded in operating results.

At September 29, 2000, foreign currency forward contracts and options with a notional value of approximately \$5,100 are in place, hedging existing and anticipated transactions. Substantially all of these contracts mature in 2000. Failure of the counterparties to perform their obligations under these contracts would expose the Company to the risk of foreign currency rate movements for those contracts. The Company does not believe the risk is significant. At September 29, 2000, the fair value of these instruments is \$(0.4).

Foreign currency swaps effectively denominate, in foreign currencies, existing U.S. dollar denominated debt of the Company. This foreign currency debt serves as a hedge of foreign assets. Accordingly, gains and losses on such swaps are recorded in shareholders' equity. At September 29, 2000, the fair value of these instruments is \$3.0.

SFAS 133, Accounting for Derivative Instruments and Hedging Activities, as amended by SFAS 137, Accounting for Derivative Instruments and Hedging Activities - Deferral of the Effective Date of FASB Statement No. 133 and SFAS 138, Accounting for Certain Derivative Instruments and Certain Hedging Activities, is effective for the Company as of September 30, 2000. SFAS 133 requires that an entity recognize all derivatives as either assets or liabilities measured at fair value. The accounting for changes in the fair value of a derivative depends on the use of the derivative. Adoption of these new accounting standards will result in a cumulative after-tax gain in net income of approximately \$1.8 million and an accumulated other comprehensive loss of approximately \$3.0 million in the first quarter of fiscal 2001. The adoption will also impact assets and liabilities recorded on the balance sheet.

Revenue Recognition

Revenue from sales is recognized on the accrual basis, primarily upon the shipment of products, net of estimated costs of returns and allowances.

Advertising

The Company expenses substantially all costs related to production of advertising the first time the advertising takes place. Cooperative promotional arrangements are accrued in relation to sales.

Advertising expense attributable to continuing operations in 2000, 1999 and 1998 totals \$18,435, \$16,258 and \$13,647, respectively. Capitalized costs attributable to continuing operations at September 29, 2000 and October 1, 1999 total \$1,360 and \$1,100, respectively, and primarily include catalogs and costs of advertising which has not yet run for the first time.

Research and Development

Research and development costs are expensed as incurred.

Stock-Based Compensation

The Company accounts for stock options using the intrinsic value based method. Accordingly, compensation cost is generally recognized only for stock options issued with an exercise price lower than the market price on the date of grant. The fair value of restricted shares awarded in excess of the amount paid for such shares is recognized as contingent compensation and is amortized over 1 to 3 years from the date of award, the period after which all restrictions generally lapse.

Pending Accounting Changes

In addition to SFAS 133 as previously noted, in December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin No. 101, Revenue Recognition (SAB 101). An amendment in June 2000 delayed the effective date for the Company until the fourth quarter of 2001, which is when the Company will adopt the bulletin. The impact of adopting SAB 101 is still being evaluated and the Company does not currently believe its adoption will have a material impact on the consolidated financial statements.

In May 2000, the Financial Accounting Standards Board's Emerging Issues Task Force (EITF) reached a consensus on Issue No. 00-14, Accounting for Certain Sales Incentives. This issue addresses the recognition, measurement, and income statement classification for various types of sales incentives including discounts, coupons, rebates and free products. The Company will adopt this consensus in the fourth quarter of 2001. The impact of this consensus is still being evaluated and the Company does not currently believe its adoption will have a material impact on the consolidated financial statements.

Reclassifications

Certain reclassifications have been made to prior years' amounts to conform with the current year presentation.

2 STRATEGIC CHARGES

In 2000, 1999 and 1998, the Company recorded strategic charges totaling \$2,369, \$2,773 and \$1,388, respectively. In 2000 strategic charges include severance, moving and other exit costs related primarily to the closure and relocation of a manufacturing facility in the Motors business. Severance costs included in the strategic charges totaled \$1,469 and approximately 95 employees were impacted by these actions. Unexpended funds at year end related to these actions were approximately \$750.

In 1999, a portion of the charges included severance, moving and recruiting costs related to the relocation of certain sales and marketing functions of the Company's Outdoor Equipment business. The balance of the charges were related to the integration of acquired businesses. Severance costs included in these charges totaled \$1,101 and approximately 30 employees were impacted.

In 1998, strategic charges included severance and other exit related costs primarily for the integration of acquired companies in the Diving business. Severance costs totaled \$781 and approximately 80 employees were impacted.

3 ACQUISITIONS

In April 2000, the Company completed the acquisition of the common stock of Pacific Kayak Ltd., a manufacturer of sit-on-top and sea touring kayaks located in Auckland, New Zealand. The initial purchase price, including direct expenses, for the acquisition was approximately \$962, of which approximately \$584 was recorded as intangible assets and is being amortized over 25 years. An additional payment in 2001 is dependent upon achievement of specified levels of sales of the acquired business.

In July 1999, the Company completed the acquisition of the common stock of Extrasport, Inc., a privately held manufacturer and marketer of personal flotation devices. The initial purchase price, including direct expenses, for the acquisition was approximately \$3,300, of which approximately \$2,500 was recorded as intangible assets and is being amortized over 25 years. In September 2000, an additional payment of approximately \$150 was accrued. Additional payments in 2001 and 2002 are dependent upon achievement of specified levels of sales of the acquired business.

In April 1999, the Company completed the acquisition of substantially all of the assets and the assumption of certain liabilities of Escape Sailboat Company LLC, a privately held manufacturer and marketer of recreational sailboats. The initial purchase price, including direct expenses, for the acquisition was approximately \$4,800, of which approximately \$3,100 was recorded as intangible assets and is being amortized over 25 years. An additional payment in 2001 is dependent upon achievement of specified levels of sales of the acquired business.

In December 1998, the Company completed the acquisition of substantially all of the assets and the assumption of certain liabilities of True North Paddle & Necky Kayaks Ltd., a privately held manufacturer and marketer of Necky kayaks, and an affiliated entity. The initial purchase price, including direct expenses, for the acquisition was approximately \$5,700, of which approximately \$3,200 was recorded as intangible assets and is being amortized over 25 years. Additional payments of approximately \$170 and \$600 were earned in 2000 and 1999, respectively. Additional payments in the years 2001 through 2003 are dependent upon the achievement of specified levels of sales and profitability of the acquired business.

In February 1998, the Company completed the acquisition of the common stock of Leisure Life Limited, a privately held manufacturer and marketer of recreational watercraft. The purchase price, including direct expenses, for the acquisition was approximately \$10,300, of which approximately \$7,300 was recorded as intangible assets and is being amortized over 25 years.

In September 1997, subsequent to the end of the 1997 fiscal year, the Company completed the acquisitions of certain assets of Soniform, Inc., a manufacturer of diving buoyancy compensators, and the common stock of Plastiques L.P.A. Limitee, a privately held Canadian manufacturer of kayaks. The purchase prices for the acquisitions totaled approximately \$3,400.

All acquisitions were accounted for using the purchase method and, accordingly, the Consolidated Financial Statements include the results of operations since the respective dates of acquisition. Additional payments, if required, will increase intangible assets.

4 SALE OF FISHING BUSINESS

In March 2000, the Company sold its Fishing business. As a result, operations and related assets and liabilities of the Fishing group have been classified as discontinued for all periods presented herein. The sale price totaled \$47,279, including \$14,056 of accounts receivable retained by the Company and \$2,367 of debt assumed by the buyer. The Company recorded a loss of \$24,418, net of tax, related to the sale of the business, taking into account operating results from the measurement date to the date of disposal. In addition, the Company recorded an after tax loss from operations up to the measurement date of \$940 in 2000, an after tax gain of \$1,161 in 1999 and an after tax loss of \$167 in 1998.

Net sales of the Fishing group were \$32,667, \$59,184 and \$58,508 for 2000, 1999 and 1998, respectively. Interest expense of \$90, \$154 and \$1,016 that is directly attributable to the Fishing group is allocated to discontinued operations.

5 INDEBTEDNESS

Short-term debt at the end of the respective years consists of the following:

| | 2000 | 1999 |
|--------------------------------------|-----------|-----------|
| Commercial paper and bank loans | \$ 53,434 | \$ 43,380 |
| Current maturities of long-term debt | 6,028 | 5,947 |
| | \$ 59,462 | \$ 49,327 |

Short-term credit facilities provide for borrowings with interest rates set periodically by reference to market rates. Commercial paper rates are set by competitive bidding. The weighted average interest rate on short-term indebtedness was 7.6% and 6.2% at September 29, 2000 and October 1, 1999, respectively. The Company's primary facility is a \$100,000 revolving credit agreement expiring in 2001, which includes a maximum amount of \$80,000 in support of commercial paper issuance. The Company has lines of credit, both foreign and domestic, totaling \$122,000 of which \$63,000 is available at September 29, 2000. The Company also utilizes letters of credit for trade financing purposes.

Long-term debt at the end of the respective years consists of the following:

| | 2000 | 1999 |
|---|-----------|-----------|
| 1998 senior notes | \$ 16,176 | \$ 24,981 |
| 1996 senior notes | 29,700 | 45,000 |

The fixed, effective interest rate to be paid on the 1998 senior notes as a result of the currency swap is 4.32%. A portion of the proceeds from the divestiture of the Fishing business was used to make an unscheduled principal payment of \$5,335 in March 2000. The 1998 senior notes have annual principal payments of \$1,721 to \$6,023 beginning October 2001 with a final payment due October 2007. Proceeds from issuance of the 1998 senior notes were used to reduce outstanding indebtedness under the Company's primary revolving credit facility.

\$5,676 of the initial purchase price for the common stock of Uwatec AG is due in 2002. Interest on the deferred amounts is payable annually at 6%. This obligation is denominated in Swiss francs. A corresponding amount of the Company's primary revolving credit facility is reserved in support of this obligation through issuance of a letter of credit.

In 1996, the Company issued unsecured senior notes totaling \$30,000 with an interest rate of 7.77% and \$15,000 with an interest rate of 6.98%. Neither the Company's signing of this Agreement nor any actions taken by the Company toward compliance with the terms of this Agreement constitute an admission by the Company that it has acted improperly or unlawfully with regard to Executive or that it has violated any state or federal law.

2. Salary and Benefits Continuation. Subject to Executive's strict compliance with the terms of this Agreement and Exhibit A, the Company shall provide severance benefits to Executive as follows:

(a) Continuation of Executive's last base salary of \$239,900 for the period following the Resignation Date until September 30, 2001 or August 31, 2001 if the Executive requests an early release pursuant to paragraph 3 (the "Severance Period"), and continued health, life, dental, and disability coverage under the Company's plans during the Severance Period. If Executive commences other employment, the Company shall pay the remaining salary continuation payments to Executive in a lump sum within ten (10) days of receiving notification

from Executive of his commencement of new employment. Any portion of such lump sum payment attributable to payments that would otherwise have been made during the fiscal year 1999/2000 or 2000/2001 shall not be considered to be earnings for deferred profit sharing, bonus calculation (except for the 1999/2000 bonus which will be computed against full fiscal year earnings even if other employment is secured and the Executive is removed from the payroll before the end of Fiscal Year 1999/2000), or any other compensation/benefits computation, none of which shall be paid in the circumstances of this lump sum payment. Executive may elect to defer receipt of any lump sum payment until January of the following year, provided that deferral shall not effect the fiscal year to which portions of the lump sum payment are attributable for purposes of this paragraph 2(a).

(b) Any accrued but unused vacation time as of the Resignation Date shall be paid within thirty (30) days of the Resignation Date.

(c) Continuation of Executive's current benefits during the Severance Period shall include without limitation, except to the extent discounted by reason of a lump sum payment attributable to fiscal years 1999/2000 or 2000/01, as described in paragraph 2(a) above, participation in the (i) 401(k) Retirement and Savings Plan, including Company matching contributions; (ii) Company retirement contributions (sometimes referred to as deferred profit sharing); (iii) Non-qualified Plan, including Company contributions; ; (iv) the Company's health, life, dental and disability coverage plans.

(d) Executive outplacement services provided by the Lawrence & Allen firm. The Company shall, prior to the Resignation Date, allow Executive reasonable scheduling flexibility during normal business hours to allow him to utilize such outplacement services or to pursue other alternative employment, but such scheduling must be approved by Helen P. Johnson-Leipold.

(e) Use of Company-provided equipment during the Severance Period until Executive accepts new employment.

(f) Bonus for current 1999/2000 fiscal year to be based on actual results, computed against full fiscal year base salary earnings. Salary continuation payments during Fiscal Year 2000/2001 will be used to compute Executive's 2000/2001 bonus payout as follows: at target for MBO portion, and the financial portion to be paid at the lesser of actual results or target.

(g) All vested and non-vested stock options will expire thirty (30) days after the end of Executive's Severance Period.

(h) If at the end of Severance Period Executive has not been offered appropriate new employment, salary continuation (as described in paragraph 2(a)) and benefits continuation (as described in paragraph 2(c)) will be extended by the Company on a month-to-month basis, but not to exceed a total of three (3) additional months. Such salary and benefit continuation shall occur only if Lawrence & Allen certifies to the Company that Executive has made all reasonable and concerted efforts to find and obtain appropriate new employment commensurate with his responsibilities and compensation with the Company.

(i) In the event of Executive's death prior to completion of the Severance Period, any remaining salary continuation, bonus or other payments shall be made to Executive's spouse (or in the event of her death to Executive's estate) with coverage also continuing for Executive's spouse and dependants under the Company's health, dental and disability plans for any balance of the Severance Period.

3. Release of All Claims. In consideration for the promises contained in this Agreement, Executive and the Company, including its subsidiary, related and affiliated companies, if any, and its and their past and present directors, officers, employees, agents, shareholders, insurers, attorneys, assigns and other representatives of any kind, (collectively referred to in this Agreement as "Released Parties"), hereby release and discharge one another from any and all claims, liabilities or causes of action of any kind, arising through the date Executive executes this Agreement, including, but not limited to, any claims liabilities or causes of action arising in connection with Executive's employment or termination of employment with the Company, or in any way related to Executive's relationship with the Company or any of the Released Parties. Executive and the Company further agree not to file, pursue or participate in any claims, charges, actions or proceedings of any kind against one another or any of the Released Parties with respect to termination of employment, or in any way related to Executive's relationship with the Company or any of the Released Parties (other than for enforcement of this Agreement or pursuing a claim for unemployment compensation benefits to which Executive may be entitled).

In the event that Executive brings an action to invalidate this Agreement, Executive covenants and agrees that prior to the commencement of such action, he shall tender back to the Company all consideration paid to him pursuant to the terms of this Agreement up to

the date such action is instituted. Executive acknowledges and understands that all non-vested Company benefits provided under this Agreement will also cease as of the date such action is instituted and that no further consideration or benefits will be provided by the Company during the pendency of such action.

5. Confidentiality. Executive acknowledges that during the course of his employment with the Company, he has been entrusted with certain personnel, business, financial, technical, sales, marketing, customer and other proprietary information and materials which are the property of the Company and which involve confidential information concerning the Company's products, dealings, strategies, plans and employees. Executive agrees that during the Severance Period and the two (2) years following the Severance Period, he will not communicate or disclose to any third party, or use for his own account or benefit or for the benefit of any other person or entity, without the prior written consent of the Company, any of the above-mentioned information or material, except as required by law, unless and until such information or material has become generally available to the public through no fault of Executive's. In the event the disclosure of such information is required by law, Executive agrees that he will give immediate written notice to the Company so as to enable it to seek an appropriate protective order. This confidentiality obligation is undertaken in addition to Executive's other confidentiality obligations to the Company, for example, pursuant to the MANAGEMENT EMPLOYEE AGREEMENT and the POLICY GUIDELINES ON STANDARDS OF BUSINESS CONDUCT AND LEGAL COMPLIANCE, all of which survive and remain in full force and effect.

6. Noncompetition. During the Severance Period, Executive promises that he shall not provide any services as employee, consultant or otherwise, that are similar to those services he provided to the Company as Chief Financial Officer, to, for or on behalf of any entity that is listed in Exhibit B by its commonly known name, or any affiliate of those entities.

7. Notice of Employment/Agreement. For a period of two (2) years from the date of this Agreement, Executive shall notify the Company, prior to accepting employment or other engagement, of the identity of the new employer or contracting party and the nature of the proposed employment duties or services. Such notice must be in writing and must be faxed and mailed to the Company's Chief Executive Officer.

8. Return of Company Property and Information.

(a) Executive represents that he has returned or will return no later than the Resignation Date, to the Company the originals and all copies of any business records or documents of any kind belonging to, or related to, the Company, regardless of the sources from which such records were obtained, together with all notes and summaries relating thereto. Additionally, Executive shall return to the Company no later than the Resignation Date all keys, security passes and other means of access to the Company's offices and other facilities.

(b) Executive represents that he shall also promptly return to the Company any and all computer software belonging to the Company, including any and all program and/or data disks, manuals and all hard copies of Company information and data, and shall disclose to the Company any and all passwords utilized by Executive with regard to the Company's computer system, hardware and software so that the Company has immediate, full and complete

access to all of the Company's data and information stored, used and maintained by Executive, or to which Executive had access. Executive will be allowed to retain his computer and its peripheral equipment.

9. Disclosure of Any Noncompliance. 10. Assistance. Executive shall, for a period of three years after the date of this Agreement, provide all reasonable assistance to the Company that may be requested by the Company for the investigation and/or defense of claims made against the Company that in any way refer or relate to any of Executive's areas of responsibility for the Company. Additionally, during the Severance Period Executive shall provide reasonable assistance as requested by the Company to facilitate a smooth transition of Executive's former job duties. The Company shall reimburse Executive for all reasonable out of pocket expenses incurred by Executive in the provision of such assistance.

11. Intellectual Property. Executive agrees that all ideas, inventions, trade secrets, know-how, documents and data of any kind developed in connection with or pursuant to his employment with the Company, is and shall remain the exclusive property of the Company.

12. Non-disparagement. Executive shall not disparage, discredit or otherwise refer to the Company or any individual members of its Executive Committee in a detrimental or negative manner. Similarly, the Chairman and his/her direct reports shall not disparage, discredit or otherwise refer to Executive in a detrimental or negative manner. If it is judicially determined that the Executive has violated this Section 12 of the Agreement, and that the Company has been materially damaged thereby, he shall repay to the Company the benefits received pursuant to paragraph 2 of this Agreement and shall be required to reimburse the Company for all of its costs, including reasonable attorneys' fees. If it is judicially determined that Executive has not violated this paragraph 12, or that the Company has not been materially damaged by any alleged violation, the Company shall be required to reimburse Executive for all of his costs of defending such action, including reasonable attorney's fees.

13. Confidentiality of this Agreement. Executive agrees to keep the terms of this Agreement completely confidential, to the extent such information is not required to be disclosed in public documents of the Company, except that he may share the information with his immediate family, attorney or tax advisor, if any, and Lawrence & Allen, who will also be bound by this confidentiality provision.

14. Sole Inducement. In order to induce the Company to provide him the consideration recited in this Agreement, Executive voluntarily executes this Agreement, acknowledges that the only consideration for executing this Agreement is that recited herein, and that no other promise, inducement, threat, agreement or understanding of any kind has been made by anyone to cause him to execute this Agreement. Executive understands that he has a

right to seek advice of counsel (at his own expense) regarding this Agreement, and Executive confirms that he has consulted with and received the advice of an attorney of his choice.

15. Rights to Consider and Revoke. Executive hereby acknowledges that the benefits provided for in this Agreement are greater than those to which he otherwise would be entitled by any contract, employment policy, or otherwise. Executive further acknowledges that he is entering into this Agreement voluntarily, that he has had more than twenty-one (21) days to consider the provisions set forth in this Agreement, or has voluntarily waived the twenty-one (21) day consideration period upon advice of counsel, and that he has been advised to seek advice of counsel regarding this Agreement prior to signing it. For a period of seven (7) days following his signing of this Agreement, Executive may revoke this Agreement by doing so in writing, and this Agreement will not become enforceable or effective until the revocation period has expired.

16. Effect of Breach. In the event that a court of competent jurisdiction determines that Executive has materially breached any of the promises contained in this Agreement, the Company shall be entitled, as of the date of the material breach, to immediately terminate, and be relieved of making, all remaining severance payments and other benefits. Any such termination, however, shall not relieve Executive of any of the obligations contained in this Agreement, all of which shall remain in full force and effect.

17. Attorneys' Fees. In the event that a court of competent jurisdiction determines that either party has materially breached this Agreement, in addition to any damages awarded, the breaching party shall pay the non-breaching party's reasonable attorneys' fees and costs incurred in each and every such action, suit or other proceeding, including any and all appeals or petitions therefrom. Notwithstanding the foregoing, any action for violation of paragraph 12 of this Agreement shall be subject to the provisions provided therein with respect to fees, costs and damages.

18. Resignation Announcement. The Company and Executive agree that any public announcement of Executive's resignation shall be mutually agreed upon as to both contents and timing prior to its release.

19. Entire Agreement. This Agreement sets forth the entire agreement between the Company and Executive and supersedes all prior oral and written agreements between the parties except any restrictive covenants which remain binding on the Executive. This Agreement cannot be amended or modified, except in writing signed by Executive and agent of the Company specifically authorized to sign on behalf of the Company in this matter.

20. Severability. If any portion of this Agreement is found to be unenforceable, all other portions that can be separated from it, or appropriately limited in scope, shall remain fully valid and enforceable.

21. Execution. This Agreement, or any amendment hereto, may be signed in any number of counterparts, including counterparts signed and delivered by fax transmission, each of which shall be and deemed an original, but all of which taken together shall constitute one agreement (or amendment as the case may be).
